5 M's- Machine Method Media Material Man

Editorial

“Education is an ornament in prosperity and a refuge in adversity.”- Aristotle

Education is a gradual process through which pupils acquire knowledge; skills and information that would enable them to develop power of reasoning and judgment in their everyday experiences. It has the power to transform human beings into human resources. Developing some soft-skills and life skills during their graduate level of education has become very significant today, like self-awareness, working with people from diverse backgrounds, tolerating diverse viewpoints, showing willingness to take risks, demonstrating leadership quality, self-directed behaviour and independence and organising things correctly.

Edu News is the annual newsletter of the department of Education of H.C.D.G. College which reflects the various activities of the students and the teachers of the department. This news letter provides scope for educational and all round development of the students in particular and teachers in general. It inspires us to work together and feel the value of co-operation and team work. It also emphasizes and culminates to transform the students to social well being in near future.

I expresses deep sense of gratitude and thankfulness to respected principal Dr. Sanjib Kumar Borgohain, HoD. Mrs. Dipali Gogoi, Mrs. Manashi Gogoi and Dr. Leena Dutta for their constructive suggestions, kind co-operation and Support. Last but not the least, I would like to also thank students of our department .
